

Suppliers Supporting ISaGRAF IEC 1131-3 Tools

IEC 1131-3 is unquestionably the world standard for PLC programming tools for new products and ISaGRAF is the most highly accepted and installed IEC 1131-3 programming tools. This is because it is a collection of the best tools for every major PLC company – the tools that everyone is already familiar with and comfortable using.

A QUICK SCORE SHEET OF MAJOR SUPPLIERS

The original committee that drafted the IEC 1131 standard consisted of all the top PLC companies (Allen Bradley, Siemens, Telemecanique, TI, Modicon, GE, GEC, etc.) Today, every major PLC company has IEC 1131-3 tools either on the market or in development and nearing release. A trip to the PLCOpen website will also reveal names of the current members. Many more are expected to join soon.

Allen-Bradley Bul. 1747-OC	ISaGRAF
ABB Factory Control Series	ISaGRAF
Divelbiss Boss 32	ISaGRAF
FESTO FEC Series	ISaGRAF
General Electric Series 90-70	ISaGRAF
ICS Trusted TMR PLC	ISaGRAF
Mitsubishi All Series	IEC 1131-3 Partial release
NEC iTRON	ISaGRAF
Omron C200H/SYSMAC Alpha	ISaGRAF
Philips P7	ISaGRAF
Rockwell Software	ISaGRAF
Siemens S7 Series PLC's	Step7 Software (IEC 1131-3)
Schneider/Modicon/SquareD	Quantum (IEC 1131-3)
SIXNET (all new products)	ISaGRAF
Telemecanique TSX Series	GRAF CET PLUS (IEC 1131-3)
Yokagawa FA-M3	ISaGRAF

A MORE COMPLETE LIST OF ISAGRAF OEM SUPPLIERS

These OEM (Original Equipment Suppliers) provide ISaGRAF tools with their products for these World-class reasons:

- ISaGRAF is the only mature IEC 1131-3 tools (ten years of demonstrated field performance)
- ISaGRAF is the safe choice – over 200 OEMs support ISaGRAF
- World-wide support is provided by factory trained engineers
- ISaGRAF is PLCOpen Certified (all five IEC 1131-3 languages)
- ISaGRAF is truly portable because the ISaGRAF tools are identical for every OEM product below. (Programs written for one product can be run on any other product!)
